Productivity & Collaboration: Google Workspace, Microsoft 365, Slack, video conferencing, AI tools (ChatGPT)

Support & Troubleshooting: Hardware/software diagnostics, connectivity issues, command-line basics (SQL, Python), technical documentation

Networking & Security Fundamentals: Networking basics, information security, log analysis, security frameworks

Strengths: Customer service, clear communication, problem-solving, time management, teamwork, calmness under pressure

PROFESSIONAL EXPERIENCE

Conductor • BNSF Railway, Newton, Kansas

2022-2026

- Monitored onboard Positive Train Control (PTC) systems and computerized telemetry in real time across 100+ miles of high-density corridors, executing immediate fail-safe interventions during critical system discrepancies.
- Ensured regulatory compliance with FRA mandates and hazardous materials transport protocols, maintaining zero non-compliance violations.

Patrol Officer • Hutchinson Police Department, Hutchinson, Kansas

2021-2022

- Served as a calm, clear point of contact for the public during high-stress situations, communicating solutions under pressure.
- Produced detailed, accurate investigative documentation held to strict scrutiny, reflecting strong attention to detail and knowledge-base-quality writing.
- Compiled detailed investigative documentation subjected to rigorous legal and evidentiary scrutiny, directly supporting judicial outcomes.
- Led immediate scene triage and risk mitigation for dynamic emergency dispatches, securing perimeters and neutralizing safety threats under extreme time pressure.

Electrician • Electri Tech and Kansas Electric, Wichita, Kansas

2014-2021

- Diagnosed and isolated faults across complex systems using a systematic, step-by-step troubleshooting process, researching solutions in technical references until fully resolved.
- Provided exceptional customer service by clearly explaining electrical issues and recommended solutions resulting in high client satisfaction and repeat business.
- Maintained a zero-incident safety record across 8 years of high-voltage industrial installations under strict National Electrical Code Book (NEC) and OSHA regulations.

Infantryman • United States Marine Corps, Twentynine Palms, CA

2007-2011

- Led and cross-trained team members in fast-moving, high-pressure environments, taking full ownership of outcomes and supporting teammates
- Enforced strict physical security, access control, and Operational Security (OPSEC) across two combat deployments to Iraq and Afghanistan, safeguarding team personnel and mission assets.

EDUCA

TION, CERTIFICATES, & CERTIFICATIONS

Google Cybersecurity Professional Certificate | Merit America, Remote (In Progress / Expected 2026)

- Gained practical experience with **Linux**, **SQL**, **Python** and utilized **SIEM tools**, **IDS**, and **network protocol analyzers** for proactive threat management

- Cultivated holistic understanding of cybersecurity's critical role in organizational security, privacy, and success, including how to systematically identify and mitigate risks, threats, and vulnerabilities.
